### **Revision of FY2018 (94th Term) Dividend Forecast**

Sumitomo Metal Mining Co., Ltd. (SMM) has announced that at its meeting held today, the Board of Directors has decided to revise its year-end dividend forecast for the fiscal year ending March 31, 2019. The details are as follows.

#### 1. Reasons behind revision

Based on its profit allocation policy and taking into account the “Consolidated Financial Results for the Year Ended March 31, 2019” announced today, SMM has decided to revise its year-end dividend forecast upward, increasing it by 3 yen, from 19 yen to 22 yen per share.

As a result of this, the year-end dividend projection has been revised from the previous projection and has increased by 3yen, to 73 yen per share.

This revised annual dividend forecast represents an expected decrease of 27 yen from the actual dividend in the previous fiscal year.

#### 2. Details of revision

	Dividend per share (JPY)		
	Q2-end(Interim)	Year-end	Full-year(Annual)
Previous forecast (released February 8, 2019)		19.00	70.00
Revised forecast		22.00	73.00
Current year result	51.00		
Reference: FY2017(actual)	17.00	66.00	-

SMM carried out the consolidation of shares at the ratio of 2 shares to 1 share on October 1, 2017. As the second quarter-end dividend for the fiscal year ending March 31, 2018 was paid based on the number of shares prior to the consolidation of shares, the second quarter-end dividend per share is shown in the amount prior to the consolidation of shares.

The year-end dividend per share for the fiscal year ending March 31, 2018 is shown in the amount based on the consolidation of shares and the full-year dividend is shown as “dash” in the table above, as it would cause misunderstanding in summing up the amounts. Calculating on the basis of the consolidation of shares, the full-year dividend would be 100 yen per share for the fiscal year ending March 31, 2018 respectively.

Note: The above dividend forecast is based on current data available as of the time of this release. Therefore actual dividends may differ from this statement for various factors.
