Publishing of Sumitomo Metal Mining Integrated Report 2020 **Our resolve in becoming the world leader in the non-ferrous metals industry** **and our initiatives towards building a sustainable society**

Sumitomo Metal Mining Co., Ltd. (Head office: Minato-ku, Tokyo, President & Representative Director: Akira Nozaki) has published its “Sumitomo Metal Mining Integrated Report 2020” (English version).

This is our fifth Integrated Report since 2016. Throughout this report, the SMM group expresses its resolve towards its lofty, long-term vision goal of becoming the world leader in the non-ferrous metals industry. Additionally, not limited simply to business strategy, the report is also a manifestation of the SMM group’s commitment to sustainability.

Moreover, while working to improve entries based on the “integrated thinking” that comprehensively ascertains the state of corporate value creation, the SMM group aimed at making this volume a more compact and easy-to-understand communication tool through carefully selecting what should be included (for example, ESG information details are now put into a separate volume called the “ESG Data Book 2020”).

Sumitomo Metal Mining Integrated Report 2020 Cover

■ Main Items

① Introduction

An overview of the SMM group and an introduction of the environment surrounding the non-ferrous metal industry.

② The SMM Group’s Creation of Value

In the first feature, we will talk about our Vision for 2030, which is a milestone towards the realization of becoming the world leader in the non-ferrous metals industry and explain our Vision as it relates to the 11 Material Issues and KPIs. In “Value Creation Process,” we further quantified the details of each process with the goal of elucidating the characteristics of our group’s value creation model. Additionally, in “Review of Past 3-Year Business Plans,” we depict management continuity and evaluate management from a long-term view through looking back at our past two 3-Year Business Plans.

③ Activity & Report

We explain strategies being used in the three businesses of Mineral Resources, Smelting & Refining and Materials, as well as in research & development, along with future initiatives. Additionally, we have a column talking about what sort of response is expected of us amid the

responses to the spread of COVID-19 this fiscal year, from the viewpoint of our societal obligation as a company.

④ A Foundation Supporting the Creation of Value

We explain the systems and initiatives related to corporate governance, compliance, environmental management and quality assurance that make up the foundation of our group's value creation. Additionally, we list sustainability data related to the 11 Material Issues.

⑤ Financial Data / Corporate Data

We list the shifts of major financial indicators from the past 11 years and more recent major financial statements.

Moving forward, we will work to enhance communication related to initiatives towards our group's goal of achieving sustainable growth and maximizing corporate value to garner even further understanding from all of our stakeholders.
