Revision of FY2016 (92nd Term) Dividend Forecast

At the meeting of board members held today, Sumitomo Metal Mining Co., Ltd. (SMM) revised its forecast for dividend per share, as shown below.

1. Reasons behind revision

Based on its profit allocation policy and taking into account the forecast of consolidated operating results in "Consolidated Financial Results for the Second Quarter Ended September 30, 2016" announced today, SMM has revised its year-end dividend forecast downward, decreasing it by 2 yen to 6 yen per share.

As a result of this, the annual dividend forecast has been revised downward by 2 yen per share from the previous forecast to 11 yen per share.

This revised annual dividend forecast represents an expected decrease of 20 yen from the actual dividend in the previous fiscal year.

2. Details of revision
