Sumitomo Metal Mining Issued the SMM Group Sustainability Report 2023

Sumitomo Metal Mining Co., Ltd. (TSE: 5713) has today issued the SMM Group Sustainability Report 2023 in English. This is the first issue as a sustainability report.

Although its activity progress and various data relating with sustainability had been disclosed in the integrated report until last year, Sumitomo Metal Mining has created a report that conveys sustainability-related information separately from the integrated report from this year, in order to respond to the recent situation that requires expansion and enhancement of information disclosure related to sustainability.

This report includes the principles for realizing a sustainable society, the promotion framework and KPIs for each material issue to realize the Vision for 2030, its annual activity results, and the future plans. The Company hopes to gain understanding of its group's sustainability activities, and utilize the opinions received from the stakeholders to improve the company's future activities and information disclosure.
